

SUMMER 2020

take
the
netherlands

Co-production folder and Industry guide

selective funding

The Netherlands Film Fund supports minority co-productions for feature films, documentaries, short animation and interactive and immersive media productions.

How much can be applied for?

- Up to 200,000 euro for a feature film.
- Up to 50,000 euro for a documentary, short animation or interactive and immersive media production.

What are the primary conditions?

- The grant must be fully spent on Dutch services, cast and crew.
- A written statement of a third party committing to the release and exploitation of the film production in the Netherlands;
- The Dutch share totals at least 10% of the production costs, including a possible Dutch share from Eurimages.
- Projects should have substantial financial support in place from the country of origin of the main producer totalling at least 50% of his own share including a selective production grant from a regional or national film fund. The grant of the Netherlands Film Fund can never exceed the selective production grant from a regional or national film fund.

Our priorities for selective funding:

- European-based production companies and countries with a co-production agreement with the Netherlands.
- Creative co-productions with a strong artistic and International appeal and substantial creative Dutch input.
- Productions with a strong festival potential.
- Directors previously selected at International festivals and/or with films released in multiple countries.
- Directors of films previously released in the Netherlands.
- Projects with territorial reciprocity (previous or future) are preferred

The Netherlands Film Fund has co-production treaties with Canada, China, France, Germany, French Community of Belgium, South Africa and specific agreements with VAF and NFI. Within the selective funding scheme we also have distribution support for minority & majority Dutch films.

info and application deadlines: filmfund.nl

film incentive

The Netherlands Film Production Incentive scheme offers a cash rebate up to 35% of the eligible production costs to be directly spent on parties subject to Dutch taxation for feature films, feature length documentaries and feature length animated films.

How to access the cash rebate

- The grant can go up to 1.5M euro per film and is determined by the eligible production costs to be directly spent on parties subject to Dutch taxation, multiplied by 30%.
- For international film (co)productions with Dutch selective funding a cash rebate of 35% can be obtained if at least 75% of the digital production costs are spent on parties subject to Dutch taxation (feature length documentary: 25%, feature length animated film: 10%).
- A 35% cash rebate can be obtained if no other Dutch state aid is part of the financing of the film production.
- Applications must be submitted by a production company that has operated consistently in the area of production and release in the Netherlands, the EU, EEA or Switzerland, for at least 2 years.
- The applicant is legally represented by a producer who, as majority producer, was responsible for at least 1 film production over the past 7 years which has been theatrically released in the Netherlands.
- The Netherlands is one of the countries of origin among the co-producers.
- For feature films and feature length animated films the minimum production budget is 600,000 euro and for feature length documentaries 250,000 euro.
- At least 50% of the financing should be committed upon application.
- A minimum eligible spend of 150,000 euro is required.
- The film production should be completely financed within 6 months of the Fund's decision on an application.
- 30% advance payment of the contribution is possible after signing the production agreement.
- Eligible applications are ranked based on a points system, a minimum of 75 points out of 200 is required.
- For Dutch minority co-productions a theatrical release in the country of origin of the main producer and at least a non-theatrical release in the Netherlands is required.
- Applying for only post-production activities is also possible.

info & application deadlines: filmfund.nl

film commission

The Netherlands Film Commission is the national liaison between the Dutch creative media industries, foreign producers and production companies in the Netherlands. Your general resource for all film related inquiries such as locations, permits and Dutch incentive production companies.

We are your matchmaker and can advise on financing possibilities of the Film Fund, including the cash rebate.

What more does the Netherlands offer international producers and production companies?

- No-nonsense English speaking workforce
- Top notch equipment, studios and VFX & post production facilities
- No union limits
- A great variety of amazing locations
- Famous Dutch light
- Largest exterior fresh water stage in Europe
- General support

Financial exploration support

International production companies that have been in contact with the Netherlands Film Commissioner about a concrete plan and consider to shoot or post-produce in the Netherlands are in the position to apply for financial support for the research of their plan.

We can offer financial support to explore different options such as location scout, line producer and / or post production supervisor including visits to postproduction facilities, local transport and accommodation.

International production companies can contact:
